

Please do not preempt Indiana's Telephone Privacy law with anything that would increase my unwanted calls at home.

My evenings are now mostly free from these unwanted calls and it has improved my time with my family.

Before it was implemented, I recieved 20 calls per week and now we are down to 2 or 3. With those I usually say "Did you know we are on Indiana's no call list?" and the caller hangs up.

Indiana's law has improved the lives of Hoosiers. Please don't Preempt it.

Thanks,

Dale
